Description of Other Released Contaminant:

Melted snow (freshwater)

Inspected:

Written Report Received: 7/8/2016

Clean Up Concluded: 6/21/2016

Risk Evaluation:

None noted.

Areal Extent:

Potential Environmental Impacts:

None noted.

Action Taken or Planned:

All released material has been contained on location in lined berms; no material was released off location. Upon discovery during routine nighttime inspections, Whiting personnel immediately shut in the facility and dispatched company and third party personnel and equipment to remove all released liquids. Whiting utilized vacuum trucks to effect removal of the released material and expects to have all material removed from the location. Whiting is continuing to remove material and investigate the cause of the release.

Wastes Disposal Location: Any removed solid materials will be sent to Secure Disposal, and, as of 14:00, all liquids are being sent to the P Evitt SWD.
